

Glossary

Age Structure :

The age structure of a population is the distribution of people of various ages groups.

Age Pyramid :

Division of age groups into into 5-year age groups (0-4, 5-9 , 10-14.....) represented as horizontal bars along the vertical axis, with the youngest age groups at the bottom and the oldest at the top

Age group:

The whole population of the same age classified in different broad age groups ;

- Children – less than 15 years
- Adults – 15-59 years (globally 64+)
- Aged – 60 and above years
